

# Bubble Club Philippe Starck

A veritable icon made by Kartell, the mass-tinted polypropylene Bubble Club sofa was a pioneer of a new concept in furniture accessories: the industrial sofa made entirely of plastic. Technology and research made it possible for Kartell to mass produce what was traditionally handmade. Bubble Club is a roomy two-seater sofa, characterised by the soft line of its armrests, in contrast with the more rational lines of the backrest. This is a minimalist silhouette, reminiscent of the lines of "granny's sofa". Along with the armchair and the small table, produced with the same finish and colours, Bubble Club is now a complete family, nothing less than an "industrial living-room". Thanks to their exceptional weather resistance, all three members of the Bubble Club family can survive perfectly outdoors and are ideal for furnishing gardens, pool sides and patios.
