

Form Piero Lissoni

Form is ideal for both home and business use, such as in waiting rooms or hotel reception areas. The basic element of the Form series is a seat which is both spacious and of ergonomic design, formed by a sheet of semi-structural polyurethane and lying on a light, chromed steel structure. It has a wide and comfortable seat, whose outline shows the result of meticulous research into the thickness of the material. This research has enabled a reduction in thickness to only 3 cm, without compromising solidity, resistance and flexibility. The series can be overlapped by placing the armchairs side by side and hooking them together freely to form long benches.
