

Pop is the first "infinitely repeatable" modular sofa. Easy to disassemble, and made using industrial technology, Pop is composed of identical transparent polycarbonate single-seat modules placed side by side to create the sofa's solid frame: backrest, seat (also made of plastic slats) and armrests.

Pop shatters preconceived ideas about the rigidity of plastic, offering itself as a comfortable and indestructible industrial stuffed sofa that stands up to shocks and heavy use.

The large and soft goose feather cushions are available in a number of fabrics.

Pop is available with a broad range of solid colours in cotton or Trevira™, making it a multi-purpose product, suitable for both adults and children, and perfect for both public and private areas, thanks to its fire-resistant properties and its excellent value for the money.

Today, Pop is no longer content to stay inside! It's ready to head outdoors! So, here's "Pop outdoor", with a water-resistant, stain-resistant and UV-resistant fabric that doesn't fade. Washable and easy care, this fabric is also mould-resistant and condensation won't form from heat and humidity. Pop's "Sunbrella" outdoor upholstery is available in a rainbow of solid, bright colours.
