

Mobil Antonio Citterio with Oliver Löw

Mobil is a system of containers that simultaneously boasts the prestige of agility, mobility, practicality, resistance and durability. For their design and glamour of the colours proposed, they fit into any room in the home or office, meeting various use functions. Surfaces and drawers are available in three finishes: with the successful semi-transparent effect, opaque and glossy in the PMMA transparent version. The drawer, alternated with upper surfaces and top, is the system's base element. Mobil can be a simple chest of 2 to 6 drawers and have convenient handles. The possible configurations can rest on wheels or feet, suggesting Mobil use in different contexts: from the bedroom to the living room to the bath, even as a Hi-Fi base, to the study or office as desk drawers for office supplies and documents.
